HOYA Corporation Announces Endorsement of Recommendations by the Task Force on Climate-Related Financial Disclosures (TCFD)

Tokyo – [November 12, 2021] - HOYA Corporation (HOYA) announces its endorsement of the recommendations by the Climate-Related Financial Disclosure Task Force (TCFD) and officially joins the TCFD Consortium.

To ensure we protect the environment for our next generations, HOYA has been actively engaged in environmental conservation activities as part of its commitment towards sustainability.

In September 2021, HOYA has identified greenhouse gas emissions as one of their key material issues under their sustainability framework, and will be implementing plans to reduce this over time.

Going forward, HOYA will also work on disclosing climate-related information based on TCFD recommendations and aims to actively promote dialogue with its key stakeholders to support the cause.
