HOYA Corporation Announces Joining the United Nations Global Compact

HOYA Corporation (hereafter, "HOYA") announces that it has signed the United Nations Global Compact (UNGC) and registered as a participating company on January 17, 2023.

The United Nations Global Compact (UNGC) is the world's largest sustainability initiative to build a healthy global society through ties between the United Nations and the private sector (companies and organizations).

Companies and organizations that sign UNGC are required to endorse the 10 principles related to "human rights," "labor," "environment," and "anti-corruption," and to continue to strive to realize them.

HOYA will support the UNGC'S 10 principles and will make effort to realize a sustainable society by promoting further ESG measures.
