The corporate governance of HOYA CORPORATION is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

HOYA promotes management with the aim of maximizing its corporate value based on the recognition that corporate governance is a matter of utmost importance for management.

As the basis of taking a fair approach to stakeholders, we have adopted a “company with Nomination Committees, etc.” structure simultaneously with the revision of the Companies Act, which enables us to better distinguish the execution and supervision of management to prevent management from being conducted based solely on in-house logic. We have also set forth in the Articles of Incorporation that the majority of Directors consist of Outside Directors, who actively supervise management by Executive Officers and provide advice in order to improve corporate value from an objective and broad perspective.

HOYA also gives Executive Officers the authority and responsibility for the execution of operations, in order to accelerate decision making and improve management efficiency.

HOYA has established HOYA Corporate Governance Guidelines at the meeting of the Board of Directors, and intends to enhance corporate governance structure and to introduce better governance systems by revising the guidelines.

Matters Related to the Independence of Such Directors and/or Staff from Executive Officers (Shikkoyaku)

It is stipulated that the right to appoint or dismiss staff members of the secretariat of the Audit Committee belongs to the Audit Committee.

Cooperation among Audit Committee, Accounting Auditors and Audit Departments

The Audit Department has a duty to examine, from an independent standpoint, whether internal control systems are functioning properly, whether any unlawful acts are occurring, and whether there are matters that need to be improved. The Audit Department performs operational audits of the business divisions and offices on a periodic basis. If problems are found through audits, the Audit Department makes improvement recommendations on the spot to the departments audited, and then reports to the Audit Committee and the Representative Executive Officer. The Internal Control Department leads the assessment activities of the status of development and operation of internal control systems, based on the Basic Plan and Policy for the Assessment of Internal Controls over Financial Reporting, puts together assessment results, and reports to the Executive Officer and the Audit Committee.

The Audit Committee holds several meetings a year with the Accounting Auditor to receive detailed explanations regarding the Accounting Auditor’s audit policies and audit plans and other explanations, such as those related to ensuring the proper execution of the Accounting Auditor’s duties. At these meetings, the Audit Committee also actively exchanges opinions and information with the Accounting Auditor by, for example, notifying its requests regarding important audit items to the Accounting Auditor. 2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

(1) Business Execution

Having the structure of a “company with Nomination Committees, etc.,” the authority of the HOYA Board of Directors is entrusted to Executive Officers, enabling swift execution of business. As of June 26, 2023, three persons - namely, the Chief Executive Officer (CEO), Chief Financial Officer (CFO), Chief Business Development Officer and Chief Sustainability Officer (CSO) were nominated by the Nomination Committee as candidates for Executive Officers and elected at the meeting of the Board of Director. Each of them oversees the execution of operations in their respective jurisdictions determined by the Board of Directors, and carries out decision-making in a speedy fashion. The Executive Officers instruct the Group Headquarters and the person responsible for the business divisions to establish and carry out specific measures based on the management policy determined by the Board of Directors. Budgetary Business Division Meetings are held every quarter in each business division, with attendance by all Executive Officers. At these meetings, each division’s progress is checked vis-a-vis the annual plan and deliberations are held on plans for the coming quarter. Business operations in each business division are largely delegated to the manager responsible for the business division, who carries out the action plan approved at the Budgetary Meeting. In addition to CEO, CFO and CSO also attend each meeting of the Board of Directors.

(2) Roles and functions of Outside Directors

The important roles of Outside Directors at HOYA are to supervise management from a fair perspective and from the position of shareholders, and to actively discuss important management matters at the Board of Directors meetings in a capacity that has no conflict of interest with general shareholders. As for their functions, the Nomination Committee, the Compensation Committee, and the Audit Committee all are comprised of Outside Directors, and Outside Directors are expected to supervise and evaluate Executive Officers through these committees. Furthermore, as more than half of the members of the Board of Directors are Outside Directors, Outside Directors are expected to be able to, when necessary, vote down proposals made by Executive Officers.

(3) Board of Directors

The Company’s Board of Directors, in which Independent Directors comprise the majority of Board members. The Company’s Board of Directors convene regular Board meetings 10 times a year as a general rule. Each meeting of the Board of Directors involves lively discussions and deliberations in a solemn atmosphere, with globally-minded Independent Directors with a wealth of management experience supervising the execution of operations by Executive Officers and providing them with inquiries and advice from various angles. The Board of Directors also works to obtain information as necessary on trends in legal changes and corporate governance by holding lectures by outside experts and through other means. In fiscal year 2022, the Board of Directors meetings were convened 10 times, with 90% attendance by 1 Director and 100% attendance by the other Directors. Based on the Board of Director Regulations, the Board of Directors addresses statutory matters, approves quarterly budgets, approves quarterly earnings reports, deliberates on M&A, deliberates on the executive organization, and receives reports on the current status and medium- to long-term plans of each business division. As of June 26, 2023, the Company’s

Board of Directors consists of five Outside Directors and two Internal Directors, including two female Outside Directors.

(4) Audit and Oversight

The Audit Committee, on which all Independent Directors (5 Independent Directors as of June 26, 2023) hold a seat, formulates the audit policies and audit plans for each fiscal year, and verifies financial statements, etc. based on the quarterly reports and year-end reports received from the Accounting Auditor according to such policies and plans.

It also interviews the Audit Department to obtain the results of operational audits, and verifies the soundness, legality, efficiency, etc. of management. All important matters are reported to the Board of Directors, and countermeasures are taken as necessary. Audit Committee meetings were convened 9 times in fiscal year 2022, with 88.9% attendance by 1 committee member and 100% attendance by the other committee members. Deliberations during the fiscal year under review focused on reports from the Accounting Auditor and Internal Audit Department, while providing advice and suggestions to the executive team with regard to the issues that came to light.

The details are as described above in “Auditing Structure.”

The accounting audit of the Company has been conducted by Deloitte Touche Tohmatsu LLC since the fiscal year ended March 31, 2009, and three certified public accountants, Koichi Kuse, Takuya Sumita, and Osamu Hattori, have performed the audit. Deloitte Touche Tohmatsu LLC has taken measures to ensure that its operating partners will not be involved in the Company's accounting audit for longer than a certain period of time. The Company's auditing staff consists of 15 certified public accountants, 6 persons who have passed the accountant examination, and 29 other persons, for a total of 50 persons.

(5) Nomination of Director and Executive Officer Candidates

The Nomination Committee, on which all Independent Directors (5 Independent Directors as of June 26, 2023) have a seat, fairly and rigorously selects candidates for Directors (ensuring said candidates possess knowledge, expertise, and capabilities suited to HOYA's business environment), based on the “Basis for Election of Candidates for Directors,” and proposes the candidates to the General Meeting of Shareholders for voting. The Committee also fairly and rigorously selects candidates (with knowledge, expertise, and capabilities suited to HOYA's business environment) for Executive Officers and the Representative Executive Officer, based on the “Standard for Election of Candidates for Executive Officer,” and proposes the candidates to the Board of Directors for voting. In cases that meet the criteria for dismissal, the Committee makes decisions to propose the dismissal of Directors to the General Meeting of Shareholders and the dismissal of Executive Officers to the Board of Directors for voting. The Committee sets out the criteria for independence of candidates for Directors, which is stricter than the rules by Tokyo Stock Exchange so that a function of overseeing Executive Officers required to Independent Directors is secured.

3. Reasons for Adoption of Current Corporate Governance System

HOYA employs a “Company with a Nominating Committee, etc.” management system. Under the “Company with a Nominating Committee, etc.” management system, by giving Executive officers authority to manage business, business decision makings are accelerated. At the same time, three committees – the Nomination Committee, the Compensation Committee and the Audit Committee – are established, with a majority of the members being Outside Directors (at HOYA, the committees are composed exclusively of Outside Directors), to ensure the effectiveness of management supervision by the Board of Directors. Adopting the “Company with a Nominating Committee, etc.” management system enables us more clearly separate the execution and supervision of corporate management, whereas this was not possible with the previous “company with corporate auditors” system. Through this system, we aim to ensure efficient management and improve the overall soundness and transparency of management.

III. Implementation of Measures for Shareholders and Other Stakeholders

1. Measures to Vitalize the General Shareholder Meetings and Smooth Exercise of Voting Rights

	Supplementary Explanations

3. Measures to Ensure Due Respect for Stakeholders

	Supplementary Explanations
Stipulation of Internal Rules for Respecting the Position of Stakeholders	The Management Principles stipulates that stakeholders, including society, customers, shareholders, and individuals, should be respected. Specific conduct guidelines are stipulated in the HOYA Business Conduct Guidelines, which was formulated based on the Management Principles and which should be followed by the HOYA Group's employees.
Implementation of Environmental Activities, CSR Activities etc.	<p>In 1993, the HOYA Group established its Environmental Philosophy and Basic Environmental Principles, and has been promoting environmental conservation activities at all of its business sites in Japan and overseas. In 2012, when HOYA acquired global multi-site certification for its environmental and occupational health and safety management systems, the Group reviewed the content of each of these systems and is developing integrated environmental conservation activities on a global basis.</p> <p>In 2022, we also renewed our "Environmental Philosophy" and "Environmental Basic Principles" in order to more proactively address issues surrounding the global environment.</p> <p>https://www.hoya.com/en/sustainability/environment/philosophy/</p> <p>Under the management philosophy, the HOYA Group has established the HOYA Group's Materiality and Sustainability Policy.</p> <p>ESG Materiality https://www.hoya.com/en/sustainability/materiality/</p> <p>Sustainability Policy https://www.hoya.com/en/sustainability/philosophy/</p>
Development of Policies on Information Provision to Stakeholders	As a policy for information provision, HOYA has established the Information Disclosure Policy.
Other	<p>HOYA is promoting global management of business and endeavoring to build a system where employees can work with passion. Employees are not judged on the basis of nationality, gender, educational background, race, thought and beliefs, and other attributes. HOYA asks and evaluates employees based on what they are capable of doing in business. HOYA assigns employees to appropriate workplaces to ensure that they can play active roles.</p> <p>HOYA has two female Outside Directors and one female executive officer. Still, the number of female leaders (women who hold section manager or higher positions) in HOYA Group in Japan is still limited, with their ratio only 14.2% (as of March 31, 2022). However, as the above-said policy describes, HOYA will continue to make efforts to create a flexible work environment, and a fair and clear performance-based evaluation system, aiming to enable employees to play active roles, whoever, regardless of their gender, demonstrate their competencies.</p>

Disclosure of the amount of remuneration or the decision policy on the calculation method

(1) Basic Policy and Determination Methods

We have established the Compensation Committee with the aim of "contributing to the improvement of our performance by establishing a compensation system that enhances incentives for directors and executive officers and conducting appropriate performance evaluations." The Compensation Committee is composed of all five directors who are not executive officers. The Compensation Committee deliberates and decides on the compensation policy for directors and executive officers and the content of compensation received by directors and executive officers based on necessary information (such as the level of other companies according to an outside expert research organization). In 2003, we discontinued the use of retirement allowances for officers.

(2) Policy on Director Compensation

Compensation for directors is based on fixed compensation and medium-to long-term incentives. Fixed remuneration consists of base remuneration and remuneration as members and chairman of the three committees of nomination, compensation, and audit. Fixed remuneration is set at an appropriate level considering our business environment, the level of other companies by an outside expert research organization, and positions and responsibilities. Mid-and long-term incentives include a restricted stock unit (RSU) that delivers prescribed shares according to the length of time directors work as an outside director. The Company grants RSUs annually in order to share a common viewpoint with shareholders on the share price and to share profits with them over the medium to long term. Every year, we offer to outside directors a base number of shares equivalent to fixed compensation for a period of three years from the same year. After the end of the applicable period, we will determine the fee base amount equivalent to the market value of the shares in the base number of shares to be delivered to outside directors. We pay a monetary compensation receivable of 50% of the base amount of such compensation to outside directors. The Outside Directors shall invest the Monetary compensation receivable in kind and receive an allocation of the number of shares calculated by dividing the monetary compensation receivable by the paid-in amount of our shares. In addition, from the viewpoint of securing funds for tax payment, the amount equivalent to the remaining base amount of remuneration will be paid as money. However, for the successor of an outside director who retires due to death and the outside director who retires due to injury or sickness, all of the fee base amount will be paid in monetary terms. We also plan to issue RSU for the next three years and beyond.

[Fee Composition Ratio]

Fixed fee: Medium-to long-term incentives (RSU) = about 1:1

(NOTE) Approximate if the stock price in three years is the same as that at the time of grant

In fiscal 2022, the Compensation Committee also deliberated on the organization and level of remuneration based on the basic policy, our management environment, the level of other companies surveyed by outside expert organizations, and the level of positions and responsibilities. The Committee determined that the remuneration for each director was at a reasonable level according to the position and responsibilities in accordance with our policy, and determined that the remuneration for each director was in line with our policy. The content of individual remuneration for directors for the fiscal year was determined to be in line with our policy.

Until fiscal 2021, a fixed number of stock options were granted at the time of new appointment and reappointment with the aim of sharing interests with shareholders over the medium to long term with a common perspective regarding stock price with shareholders. Stock options are exercisable for each subsequent year after a waiting period of approximately one year, with 25% of the number granted. The periods are exercisable for 10 years.

[Constituent ratio of remuneration up to fiscal 2021]

Fixed fee: Medium-to long-term incentives (stock options) = about 1: 0.3 to 0.6

(NOTE) The above percentage of medium-to long-term incentives fluctuates in response to changes in the share price of our shares, etc.

(3) Compensation Policy for Executive Officers

Compensation for executive officers is based on fixed compensation, annual incentive (performance-based bonus) and medium-to long-term incentive (performance-share units ("PSU")). Fixed fee is set based on the position and responsibilities of each executive officer (representative executive officer, chief financial officer, etc.), and subsidies (residence, etc.) associated with stationing overseas are set at an appropriate level, taking into account our business environment, the level of other companies surveyed by external expert organizations, and positions and responsibilities.

Performance-based bonuses are determined by quantitative performance and qualitative assessments and generally range from 0 to 200%. Quantitative performance indicators include revenue, profit attributable to owners of the parent, and earnings (EPS) per share in the consolidated financial statements.

PSU is a system that begins in fiscal 2019 and issues shares based on the achievement of pre-determined performance conditions, which were introduced in lieu of stock options. The payment rate based on the achievement of performance targets varies from 0% to 200% based on the performance of the three fiscal years.

As a performance indicator for the three fiscal years, we selected revenue, earnings per share (EPS), and ROE in the consolidated financial statements. Details on performance-based compensation for executive officer officers are described in [Summary of performance-based compensation for executive officers (annual incentives, medium-to long-term incentives)] given below.

During the fiscal year 2022, the Compensation Committee also deliberated on the composition and level of remuneration based on the basic policy, our management environment, the level of other companies surveyed by external specialist organizations, and the position and responsibilities of other companies. The Committee determined that the remuneration was at a reasonable level according to the position and responsibilities of executive officers in line with our policy, and determined that the remuneration for each executive officer was determined in line with our policy. The content of individual remuneration for executive officers for the fiscal year 2022 was determined to be in line with our policy.

[Fee Composition Ratio]

CEO	Fixed fee: Annual incentive (performance-based bonuses): Medium-to long-term incentive (PSU) = 1:1:1.25
Executive Officers other than CEO	Fixed fee: Annual incentive (performance-based bonuses): Medium-to long-term incentive (PSU) = 1:1:1

(NOTE)Target achievement ratio, etc. is 100%, and the share price after 3 years is the same as that at the time of grant.

[Summary of performance-based compensation for executive officers (annual incentives, medium-to long-term incentives)]

a. Annual incentives (performance-based bonuses)

Annual incentives (performance-based bonuses) are paid based on the following formula.

$\begin{aligned} \text{Amount of annual incentive (performance-based bonuses)} &= \text{base amount by position} \times \text{performance-based coefficient of quantitative targets (*)} \times 80\% \\ &+ \text{Standard amount by position} \times \text{performance-based coefficient of qualitative target (*)} \times 20\% \end{aligned}$

※The performance-based coefficient generally varies from 0% to 200%.

(NOTE)1. Qualitative evaluation methods for annual incentives (performance-based bonuses) are evaluated for each item such as "degree of budget achievement related to divisional performance," and are determined after deliberation by the Compensation Committee.

2. The target values in the above table are set with reference to our business environment, etc., and differ from the performance forecast.

b. Medium-to long-term incentives (PSU)

Each year, for a period of three years from the same year, we present to executive officers the number of shares to be awarded based on their position and responsibilities, as well as medium-and long-term performance targets for the applicable period. After the end of the applicable period, we will determine the fee base amount equivalent to the market value of our shares, which is the number of shares subject to the standard award multiplied by a coefficient based on the degree of achievement of the medium-to long-term performance targets, to our executive officers. We pay a monetary compensation receivable of 50% of the base amount of such compensation to our executive officers. The Executive Officers receive an allocation of the number of shares calculated by dividing the amount of the monetary compensation receivable by the paid-in amount of our shares by contributing the monetary compensation receivable in kind. In addition, from the viewpoint of securing funds for tax payment, the amount equivalent to the remaining base amount of remuneration will be paid as money.

However, all of the compensation base amount will be paid in monetary amounts to the domestic non-resident executive officers and the heirs of the executive officers who retire due to death.

We also plan to issue PSU for the next three fiscal years and beyond. The outline of the above is illustrated below.
